

HP: Integrity Servers

Provides a unique combination of mission-critical availability, virtualization, and scalability

Overview

HP also offers the HP Integrity systems family—the most trusted brand for mission-critical environments requiring the highest RAS levels. A multi-OS ecosystem running HP-UX 11i, OpenVMS, Microsoft® Windows® Server 2003, Linux® and NonStop, the Integrity platform provides a unique combination of mission-critical availability, virtualization, and scalability.

Additionally, you could also choose from the Integrity systems family that includes:

- » HP Integrity NonStop servers—enabling the highest levels of availability for 24x7 business solutions
- » HP Integrity servers—spanning from entry-class to Superdomes, with unique multi-OS capabilities and leading virtualization
- » HP Integrity server blades—bringing Integrity mission-critical capabilities to an HP BladeSystem c-Class form factor
